

SBA-D

Soft pie jaws aluminium light version

- Less deformation of easy deformed parts with wrap around jaws
- Less jaw mass (3 x lighter than steel jaws)
- Higher chip removal at higher speeds
- Inch serration 1/16" x 90° or 3/32" x 90°
- Material: aluminium (tensile strength = 500 N/mm²)

Aluminium jaws are subject to centrifugal force.
Also lighten these jaws for less loss of grip force!
